

Technological start-up ecosystem development (Startup_13) - National Innovation Office's Call for Proposals

The National Innovation Office (NIH), as the accreditation organization, **has opened its *Call for proposals to grant the title of "Accredited Technology Incubator" (ATI)*** (code: ATI-2013).

[Communication 17.09.2013. – verbal presentations](#)

[Communication 26.08.2013. – modified application package](#)

[Communication 31.07.2013. – Partner search tool is available](#)

The objective of the call for proposals ATI-2013 is to select and accredit technological incubators that are competitive on international markets, promote the build-up of start-up enterprises founded on R&D results achieved in Hungary or even in neighboring countries, contribute to the successful completion of their R&D projects and undertake to provide capital investment.

The parties awarded the title of Accredited Technological Incubator will have the option to enter Sub-program I in the call for proposals "*Technological start-up ecosystem development*"(Startup_13), which is announced to the debit of the Research and Technological Innovation Fund and available on the National Development Agency' website:

<http://www.nfu.hu/doc/4146>.

The accredited technology incubators will not receive direct financial support with the title awarded!

Submission of applications is possible between: July 1 – September 15 2013.
