OPTOFORCE

Sensors for Industrial Automation

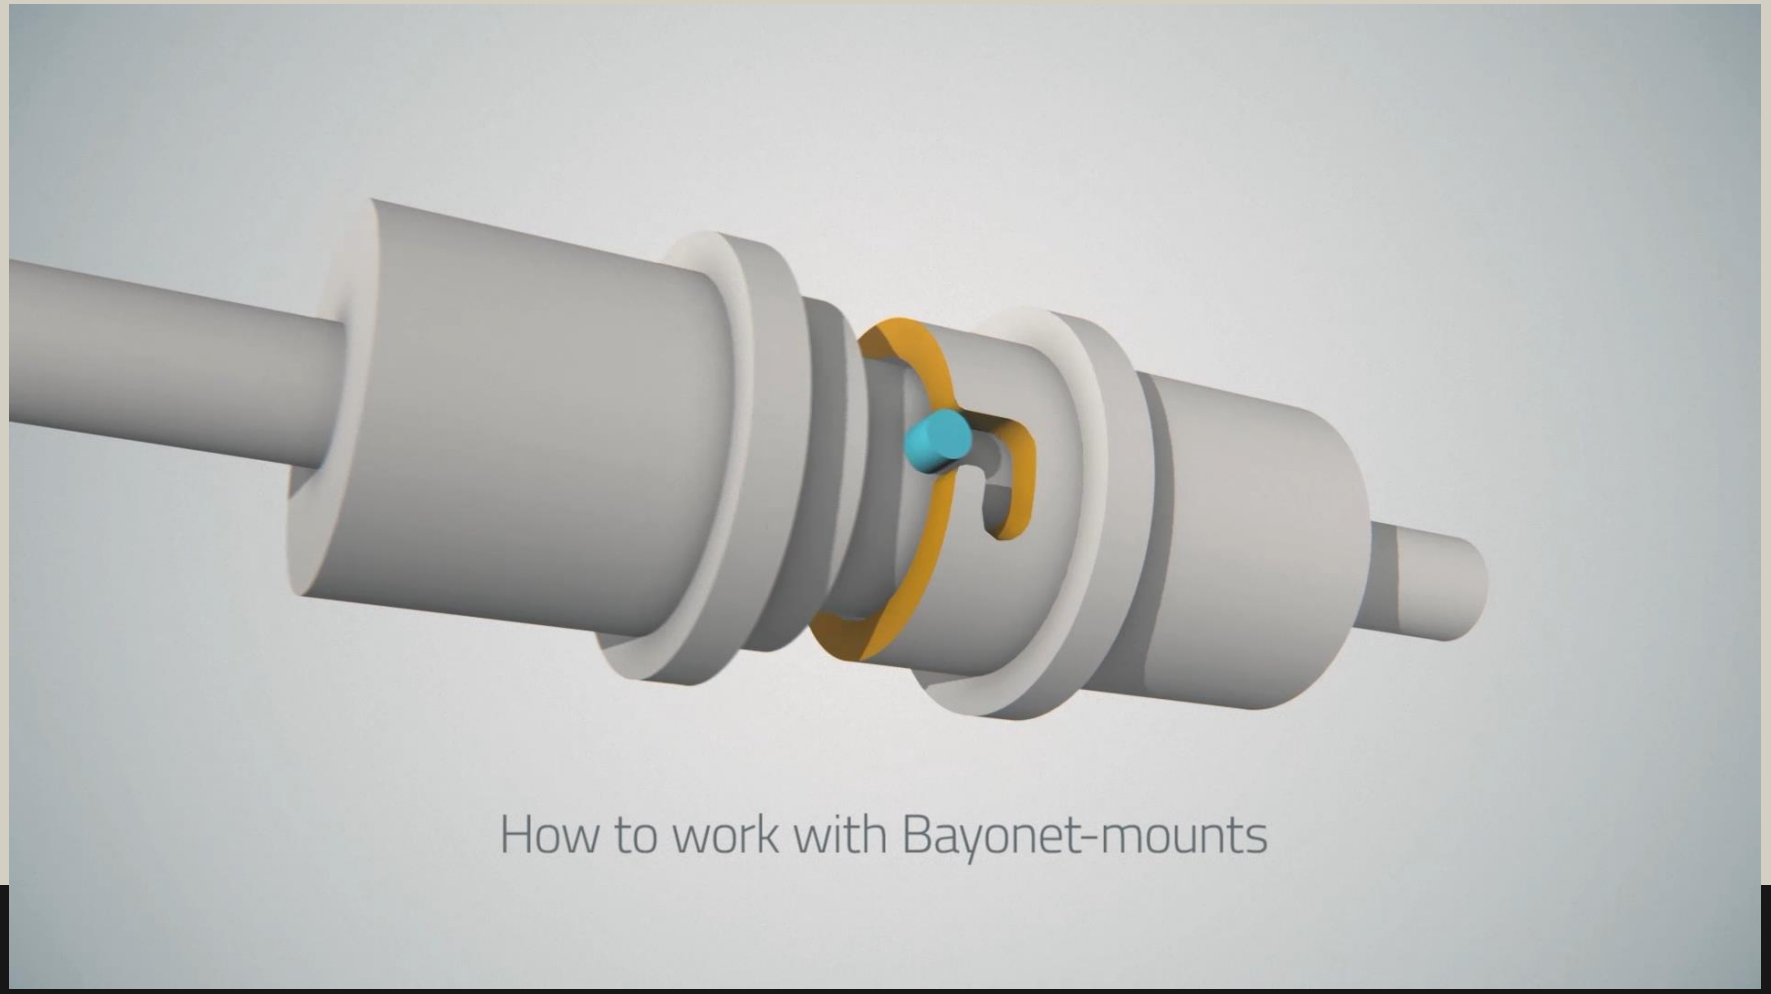
We bring the sense of touch to industrial robots
so that we can automate tasks that require the dexterity of
the human hand.

OPTOFORCE

Application example: polishing

OPTOFORCE

Application example: Assembly tasks



OPTOFORCE

How do we change robotics?

For system integrators:

- Less programming time
- Less programming skills needed
- Fast project delivery

For factories:

- New tasks can be automated

OPTOFORCE

Strong Global Presence

60 distributors World Wide

97% export

- 40% EU
- 25% USA
- 25% Far East

OPTOFORCE

Awareness - The key challenge in CEE

Collaborative Robotics
Industry 4.0
Industrial IoT
Artificial intelligence
Big Data

It is FAST!

Sure, but can you afford to be left behind?

THANK YOU FOR YOUR ATTENTION

Ákos Dömötör, CEO
