SAP Leonardo Mode 2 Digital Innovation System

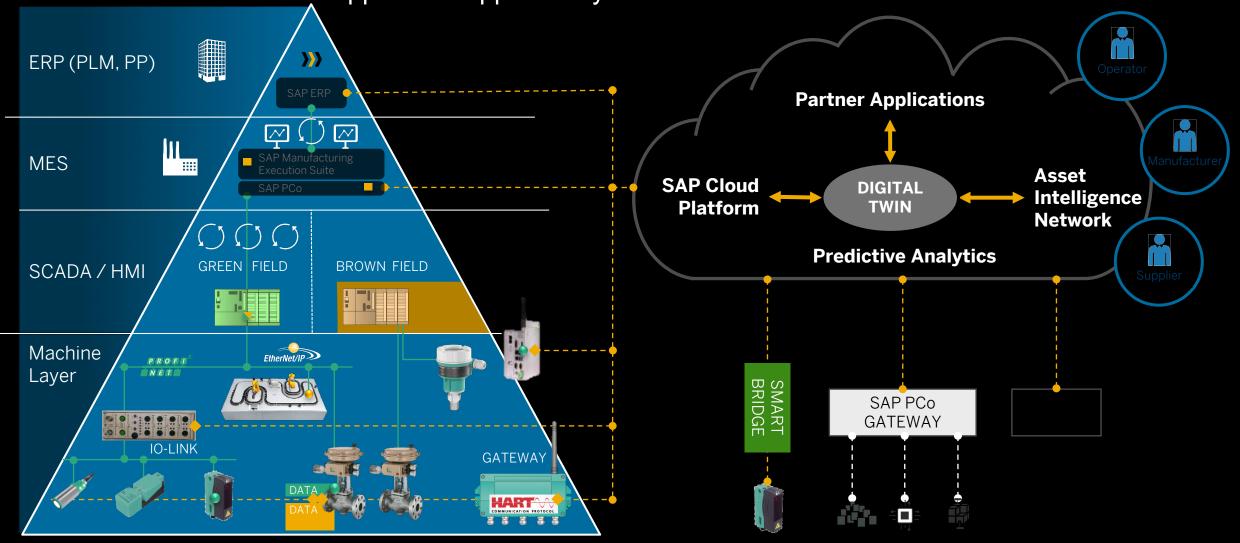

SAP Leonardo is the basis for your 'Mode 2' innovation

Factory Automation / IT/OT Integration – The Building Blocks

View of Automation Pyramid supported by SAP Connected Manufacturing in conjunction with external IoT Cloud approach supported by SAP AIN and SAP Cloud Platform

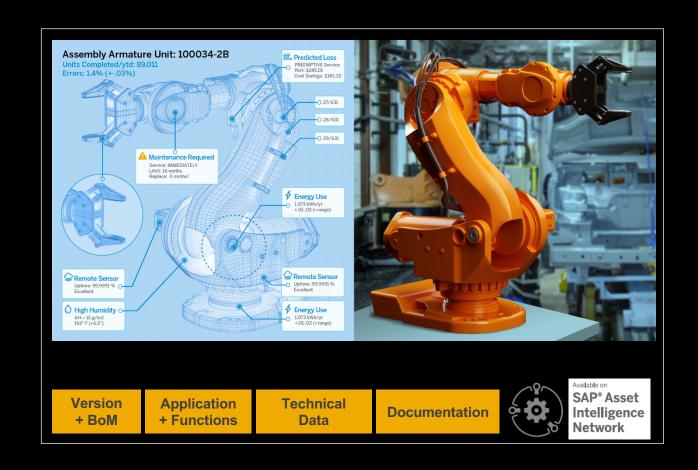

"Digital Twins" for Asset Management

Digital Twin for Business

New digital services require a entirely new approach to manage industrial assets:

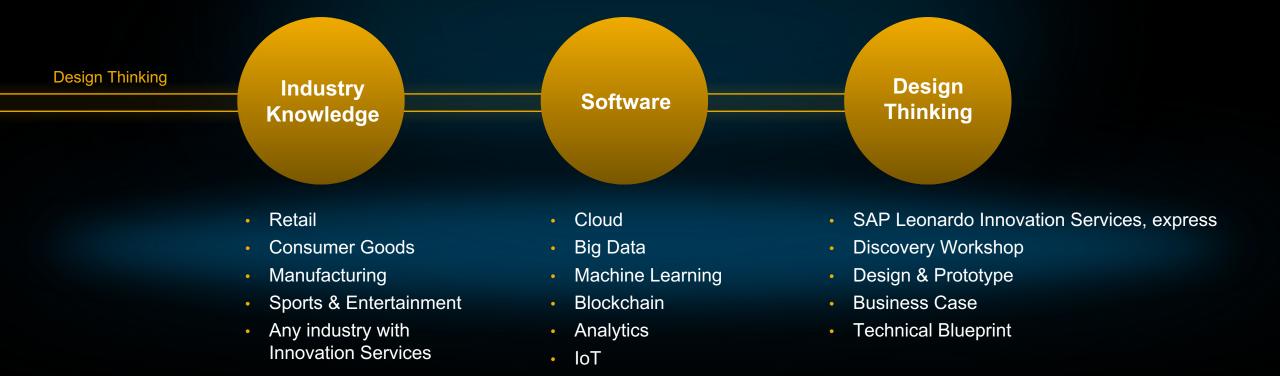

- Unique Identifier for each equipment
- The Digital Twin brings together the
 - Sensor information (asset health)
 - Installation and service information
 - Sales and contextual information
- The foundation to
 - provide digital services to their customers
 - analyze product performance and
 - drive continuous improvements

How to start?

SAP Leonardo Industry Innovation Accelerators

ac-cel-er-a-tor

Fixed price *Accelerator bundles* of necessary expertise, data and software integrated to solve a specific and common business problem, plus the services to get started and deliver business value quickly

Introducing the SAP Leonardo Jumpstart Packages

Document vision &

Program kickoff

scope and backlog

SAP Leonardo IoT

Discovery (Optional)

Discover & Assess

1 DAY

Executive IoT design thinking session

- Understand the impact of IoT on the business
- Identify area for innovation

Viable IoT engagements

- Assess feasibility and viability with business stakeholders
- Identify key value drivers

Explore Prototype Implement 1DAY 2 WEEKS 3 MONTHS **Kickoff & Vision and** Realizing pilot Rapid IoT **Scope Workshop** prototyping Realize former prototype workshop as live pilot project by Calibration of the Jump onboarding assets or Start program with Narrow down on one devices business and IT core business process stakeholders Provide software as a Redesign business service for limited time
