CHALLENGES

ALL UNITE FOR WATER | How much might people in developing countries be willing to participate for safe water?

ANIMAL HUSBANDRY, NATURALLY | What is the future potential of natural meat production enhanced with nanoscience?

LIKE IN THE REAL WORLD | How to take laboratory simulation into the next level?

IDENTIFYING INFECTIONS | How to enter to the health market with a novel solution?

IT'S MY OWN VOICE | How to make speech with your own, unique voice an everyday right even for those who don't currently have it?

THE RIGHT NOT TO FORGET | Dementia is a wicked issue. How would society be different without its existence?

DOCTORS WITHOUT BARRIERS | How might remote medical services revolutionize global health?

NO PILL LEFT BEHIND | How to revolutionize medicine-taking throughout the value chain with modern technology?

ECOSYSTEM OF THE VAGINA | Is sexual health of female population important enough to make a change in societies?

THE RIGHT NOT TO FORGET 2 | Demola is a wicked issue. How would society be different without its existence?
