Information on institution profile (R&D field, products, services etc.):

One focus of the Institute for Construction Operation and Management (IBB) is Building Information Modelling (BIM). In particular, BIM along the value chain. IBB has strong connections to construction logistics. The Center for Logistics and traffic (ZLV), which represents logistical topics in the ICT area, is also represented.

Expectations on sought partner(s) (R&D field, products, services etc.):

builders or others involved in the construction process. Here, in particular, groups interested in smart or intelligent services for the construction or operation of buildings or other structures like infrastructure or the logistic industry.
