# SATELLITE APPLICATIONS CATAPULT

## Who are **we**?

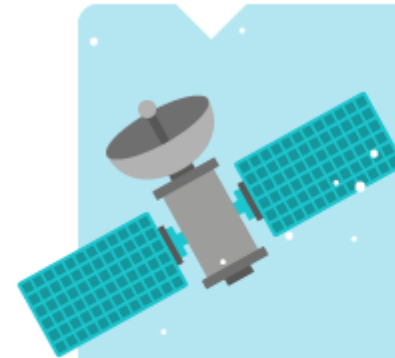

A technology and **innovation** company transforming the way the world uses **satellite technology and data.**

### We help organisations grow their business.

We help organisations large and small to use satellite applications to grow their business in the UK and internationally.

### By tackling barriers to innovation.

We bring together industry, researchers, end-users and government to overcome barriers to innovation, explore and develop new ideas, and accelerate products and services to market.

### OUR MISSION:

To innovate for a better world, empowered by satellites.
