Secure Communication Gateway

OpenLimit SignCubes AG

Maik Pogoda

www.openlimit.com

- OpenLimit SignCubes AG was founded in 2002 and is a swiss company, publicly listed on the stock market focused on IT-Security
- OpenLimit offers unique CC - and EAL 5+ certified technologies for:
 - Secure identification
 - Secure authentication
 - Secure data communication (transactions, e.g. machine to machine)
- OpenLimit's technologies are being used:
 - To secure the nID-Card in Germany
 - To secure the infrastructure of German eHealth system (Konnektor)
 - To protect customer data for Smart Metering (SMGW)
- OpenLimit operates worldwide jointly working with local partners

- OpenLimit offers technologies to protect critical infrastructures, datas and processes based on reference projects already implemented and being used for German nID-Card and eHealth-platform in Germany.
- OpenLimit is now to adapt and to furthermore develop those technologies in the field of IoT and Industrial Security

- OpenLimit is seeking for industrial partners to jointly develop and to pilot a Secure Communication Gateway to provide the highest level of IT-Security to protect critical infrastructures and processes
- Profile of the partners sought:
 - Type: Companies and Governmental organisations
 - Skills: tbd
 - Role: Development Partner also providing and implementing relevant use cases
