Work as an expert

The European Union Institutions appoint external experts to assist in the evaluation of grant applications, projects and tenders, and to provide opinions and advice in specific cases.

In particular, experts assist in:

- **Evaluation** of proposals, prize applications and tenders
- **Monitoring** of actions, grant agreements, public procurement contracts

In addition, experts provide opinion and advise on:

- **Preparation, implementation and evaluation of EU programmes and design of policies.**

In order to select experts, the European Union Institutions publish regularly calls for expression of interest (see list below) detailing the selection criteria, the required expertise, the description of the tasks, their duration and the conditions of remuneration.

Institutions I agree to work with:

- EU institutions and bodies
- Other EU Institutions (European Parliament, European Council, Court of Justice of the European Union, European Central Bank, European Investment Bank, European Court of Auditors, European Committee of the Regions, European Economic and Social Committee, ...)
- Research funding bodies with a public service mission, based in the EU/EEA countries (other than EU institutions and bodies) or in third countries, associated to Horizon Europe or to other EU funding programmes, for which the Commission has adopted an adequacy decision
- Research funding bodies with a public service mission, which are based in third countries, associated to Horizon Europe or to other EU funding programmes, for which the Commission has not adopted an adequacy decision¹

1. An 'adequacy decision' recognises that a third country offers data protection standards equivalent to the ones in the EU/EEA countries. In principle, the transfer of personal data to non-adequate third countries is much more risky compared to EU/EEA countries and adequate third countries. Therefore, given the risks, in the absence of an "adequacy decision", your data may be transferred to a third country if you have provided your explicit consent

I agree to work on :

You cannot edit the choices for the opt-ins since you have an active contract. As soon as your contract is closed the options will be editable again.

- All programmes and sub-programmes of the above selected EU and non-EU institutions.

If you are contacted for tasks that are beyond your competences, you can always decline to work on these tasks with no further consequences.
