Research and Innovation Participant Portal

<http://ec.europa.eu/research/participants/portal/desktop/en/home.html>

The screenshot shows the homepage of the Research & Innovation Participant Portal. At the top, there is a blue header with the European Commission logo and the text "RESEARCH & INNOVATION Participant Portal". Below the header is a navigation menu with links for "HOME", "FUNDING OPPORTUNITIES", "HOW TO PARTICIPATE", "EXPERTS", and "SUPPORT". There are also "LOG IN" and "REGISTER" buttons. The main content area features a banner for "Horizon 2020 Funding Starting from 1/1/2014". Below the banner, there is a section titled "On this site you can find and secure funding for research & innovation projects under the following EU programmes:" with a list of programmes: "2014-2020 Horizon 2020 - research and innovation framework programme" and "2007-2013 7th research framework programme (FP7) and Competitiveness & Innovation Programme (CIP)". There are two columns of user instructions: "Non-registered users" (search for funding, read the funding guide, check registration status, contact support) and "Registered users" (submit proposal, sign grant, manage project lifecycle). At the bottom, there is a row of six icons with labels: "WHAT'S NEW?", "FUNDING OPPORTUNITIES", "HOW TO PARTICIPATE", "WORK AS AN EXPERT", "MY PERSONAL AREA", and "INFORMATION AND SUPPORT". The footer contains the text "RESEARCH ON EUROPA", "CORDIS", and "OLAF".

How to participate

H2020 ONLINE MANUAL

The first steps to prepare your proposal and apply for EU research funding. Learn how to find a suitable Call for proposals or project partners and how to submit your proposal.

The following guidance services facilitate your participation:

- **H2020 Online Manual:** step-by-step online guide through the Portal processes from proposal preparation and submission to reporting on your on-going project
- **Reference documents:** library of legal documents, guidance notes, and additional reference material for H2020 and FP7
- search for already registered organisations and their **PICs**
- **Financial viability self-check tool** allows you simulating the financial viability check of your organisation
- **SME participation:** dedicated H2020 guidance page for SME

1 FIND a call 2 FIND partners 3 CREATE your account 4 REGISTER your organisation 5 SUBMIT a proposal

Step 1 - Find a suitable Call for Proposals

H2020 ONLINE MANUAL

The Commission publishes on the Participant Portal all the Calls of its research and innovation programmes H2020, and you can search calls from previous programmes (FP7 and CIP). In addition you can find information about some additional calls in the **Other Funding Opportunities** section. If you apply for the first time and do not know yet the programmes, it is useful to read the H2020 Online Manual. It helps you choose the most suitable programme for your area and profile. Besides, you can search according to your research topic with key words and set filters in the calls list.

Your National Contact Point can also help you find the most suitable call for your profile. SMEs are in addition supported by the **Enterprise Europe Network**.

Step 2 - Find project partners or apply as an individual

H2020 ONLINE MANUAL

Collaborative projects: most of the EU funded projects are collaborative projects with **at least 3 organisations** from different EU Member States or Associated countries. Various **partner search services** help you to find organisations that would like to participate in the proposals. You can also post your collaboration offers there.

H2020 also aims to enhance EU **international research cooperation** so there are more opportunities for cooperation with and participation by researchers from non-EU countries.

Register an organisation

HOW TO

If you want to participate in a project proposal, your organisation needs to be registered with the Commission.

It is possible to check on the Participant Portal **Beneficiary Register** page if your organisation is already registered. If not, you can start the registration process on the same page.

If your proposal is successful, you will also need to know about:

- the checks carried out on the information you provide on registering (**validation**)
- appointing a representative (**LEAR**)
- the checks that may be carried out on your organisation's **financial viability**

TOPIC : New governance, business, financing models and economic impact assessment tools for sustainable cities with nature-based solutions (urban re-naturing)

SCC-03-2016

<http://ec.europa.eu/research/participants/portal/desktop/en/opportunities/h2020/topics/4084-scc-03-2016.html>

... are facing... and multiple... To enable the systemic integration of these solutions into a sustainable urban planning, new governance, business, financing models and partnerships are needed allowing for their co-designing, co-development and co-implementation by all stakeholders and societal actors, and leveraging of investments and synergies between private and public actors.

Scope:

Actions should:

- map and analyse existing experiences and practices and recommend innovative business models, financing mechanisms (e.g. crowd funding) and governance arrangements to develop socially acceptable urban 're-naturing' planning through participatory, multi-stakeholder and trans-disciplinary way, involving also local communities, empowering citizens and allowing for an equitable distribution of costs and benefits (including co-benefits) at different scales and trade-offs resolution models, new forms of partnerships (e.g. public-private) and strategies for mobilising new investments and creating new business opportunities;
- develop and validate analytical frameworks and methodologies, tools, protocols, standards, indicators and matrices to: characterise nature-based solutions; assess their cost-effectiveness (accounting for both benefits, co-benefits and possible negative impacts) as compared to alternative combinations of green/grey/hybrid solutions; identify their limits under different conditions and assess confidence intervals, performance thresholds and corresponding uncertainties;
- develop and validate decision-support tools, models, management strategies, guidelines and recommendations to assist the urban re-naturing design process and enable the systemic integration of these solutions into a sustainable urban planning, replicability and scalability;
- identify cultural, social, economic, institutional, legal, regulatory and administrative barriers, incentives/deterrents fostering/discouraging the implementation of nature-based solutions and bottlenecks at city, regional, national and EU level, including aspects such as citizens' perceptions, consumer behaviour and willingness to pay to conserve/enhance urban green space, for re-naturing cities to enhance their economic, social, cultural and environmental resilience, and recommend ways to overcome them.

Proposals shall address all of the above points.

The role of social innovation, and the participation of social sciences and humanities, is particularly important to properly address the complex challenges of this topic. Resources should be envisaged for clustering the projects financed under the 'Nature-based solutions for territorial resilience' part of the call for Societal Challenge 5 "Climate Action, environment, resource efficiency and raw materials", namely topics SC5-08-2016-2017, SC5-09-2016, and SC5-10-2016, to optimise collaboration, synergies, interactions and mutual support to the achievement of their corresponding objectives and - if possible - under other parts of Horizon 2020.

The Commission considers that proposals requesting a contribution from the EU of around EUR 7.5 million would allow this specific challenge to be addressed appropriately. Nonetheless, this does not preclude submission and selection of proposals requesting other amounts.

Expected Impact:

Projects are expected to contribute to:

- develop enhanced strategies, new institutional and governance arrangements and new finance and business models, fostering multi-stakeholder involvement, citizens' engagement and empowerment, leveraging both public and private funding of nature-based solutions in cities;
- kick-start of a collective learning process to foster creative and visionary urban design in re-naturing cities, securing an equitable distribution of the multiple benefits that city re-naturing entails to various stakeholders and citizens at different scales;
- develop an integrated evidence base and a European reference framework on nature-based solutions, in order to create a global market, new business opportunities, growth and jobs, and a green economy;
- optimise the policy and regulatory and administrative frameworks;
- shift in public and private investments from conventional to nature-based or effective combinations of nature/grey/hybrid solutions to urban challenges.

A pályázati felhívás értelmezése II.

Specific Challenge:

Re-naturing cities can provide solutions to the multitude of challenges that cities are facing because nature-based solutions have proven to be multi-purpose and multi-beneficial. To

- **Interdiszciplinaritás** – topic-ok közötti kapcsolat

Specific Challenge:

Re-naturing cities can provide solutions to the multitude of challenges that cities are facing because nature-based solutions have proven to be multi-purpose and multi-beneficial. To enable the systemic integration of these solutions into a sustainable urban planning, new governance, business, financing models and partnerships are needed allowing for their co-designing, co-development and co-implementation by all stakeholders and societal actors, and leveraging of investments and synergies between private and public actors.

Scope:

Actions should:

- map and analyse existing experiences and practices and recommend innovative business models, financing mechanisms (e.g. crowd funding) and governance arrangements to develop socially acceptable urban 're-naturing' planning through participatory, multi-stakeholder and trans-disciplinary way, involving also local communities, empowering citizens and allowing for an equitable distribution of costs and benefits (including co-benefits) at different scales and trade-offs resolution models, new forms of partnerships (e.g. public-private) and strategies for mobilising new investments and creating new business opportunities;
- develop and validate analytical frameworks and methodologies, tools, protocols, standards, indicators and matrices to: characterise nature-based solutions; assess their cost-effectiveness (accounting for both benefits, co-benefits and possible negative impacts) as compared to alternative combinations of green/grey/hybrid solutions; identify their limits under different conditions and assess confidence intervals, performance thresholds and corresponding uncertainties;
- develop and validate decision-support tools, models, management strategies, guidelines and recommendations to assist the urban re-naturing design process and enable the systemic integration of these solutions into a sustainable urban planning, replicability and scalability;
- identify cultural, social, economic, institutional, legal, regulatory and administrative barriers, incentives/disincentives fostering/discouraging the implementation of nature-based solutions and bottlenecks at city, regional, national and EU level, including aspects such as citizens' perceptions, consumer behaviour and willingness to pay to conserve/enhance urban green space, for re-naturing cities to enhance their economic, social, cultural and environmental resilience, and recommend ways to overcome them.

Proposals should address all of the above points.

The role of social innovation, and the participation of social sciences and humanities, is particularly important to properly address the complex challenges of this topic. Resources should be envisaged for clustering the projects financed under the 'Nature-based solutions for territorial resilience' part of the call for Societal Challenge 5 'Climate action, environment, resource efficiency and raw materials', namely topics SC5-08-2016-2017, SC5-09-2016, and SC5-10-2016, to optimise collaboration, synergies, interactions and mutual support to the achievement of their corresponding objectives and – if possible – under other parts of Horizon 2020.

The Commission considers that proposals requesting a contribution from the EU of around EUR 7.5 million would be most specific challenge to be financed appropriately. Nonetheless, this does not preclude submission and selection of proposals requesting other amounts.

Expected Impact:

to contribute to:

- strategies, new institutional and governance arrangements and new models, fostering multi-stakeholder involvement, citizens' empowerment, leveraging both public and private funding of nature-based solutions;
- civic learning process to foster creative and visionary urban design in securing an equitable distribution of the multiple benefits that city re-naturing stakeholders and citizens at different scales;
- evidence base and a European reference framework on nature-based solutions to create a global market; new business opportunities, growth in economy;
- and regulatory and administrative frameworks;
- private investments from conventional to nature-based or effective green/grey/hybrid solutions to urban challenges.

The role of social innovation, and the participation of social sciences and humanities, is particularly important to properly address the complex challenges of this topic. Resources should be envisaged for clustering the projects financed under the 'Nature-based solutions for territorial resilience' part of the call for Societal Challenge 5 'Climate action, environment, resource efficiency and raw materials', namely topics SC5-08-2016-2017, SC5-09-2016, and SC5-10-2016, to optimise collaboration, synergies, interactions and mutual support to the achievement of their corresponding objectives and – if possible – under other parts of Horizon 2020.

Type of Action	Research and Innovation action [RIA]	START SUBMISSION
Topic	New governance, business, financing models and economic impact assessment tools for sustainable cities with nature-based solutions (urban re-naturing) - SCC-03-2016

3 - Budget for the proposal ?

Participant	Country	(A) Direct personnel costs/€	(B) Other direct costs/€	(C) Direct costs of sub- contracting/€	(D) Direct costs of providing financial support to third parties/€	(E) Costs of inkind contributions not used on the beneficiary's premises/€	(F) Indirect Costs / € (=0.25(A+B-E))	(G) Special unit costs covering direct & indirect costs / €	(H) Total estimated eligible costs / € (=A+B+C+D+F +G)	(I) Reimburse- ment rate (%)	(J) Max. grant / € (=H*1)	(K) Requested grant / €
NATIONALINNOVAT	HU	?	?	?	?	?	?	?	?	?	?	?
		0	0	0	0	0	0	0	100	0	0	0
Total		0	0	0	0	0	0	0		0	0	0

3 - Budget for the proposal

(A) Direct personnel costs/€

Please enter the direct personnel costs for staff working on the project. Use one row for each beneficiary. Include costs of linked third parties, if any, in the beneficiary's budget. A beneficiary can have one or more types of direct personnel costs. The various possible types of direct personnel costs are indicated below:

- actual personnel costs (salaries and social security contributions, as well as taxes and other costs included in the remuneration if they arise from national law or the employment contract)
- unit personnel costs calculated according to the participant's usual accounting practices (average personnel costs)
- unit personnel costs for SME owners without salary or participants that are natural persons without salary
- additional remuneration ('bonus payments'; for non-profit organisations only and subject to specific eligibility conditions)
- personnel costs for providing access to research infrastructure (if applicable according to the call for proposals)
- costs of personnel seconded against payment (in-kind contributions against payment)
 - Example: A researcher, who is employed by a legal entity outside the project, works in the laboratory of the participant. The legal entity is reimbursed by the participant, and the participant charges these costs to the project.
- costs of personnel seconded free of charge (in-kind contributions free of charge)
 - Example: A professor is working in a public university that participates in the project. His salary is paid directly by the ministry, not by the university. The university charges the salary costs to the project without reimbursing the ministry.

Indirect costs (F) or special unit costs (G) must not be included here. For details on the types of 'direct personnel costs', their calculation, and the conditions for their eligibility please refer to Article 6.1 (general) and Article 6.2.A (specific) of the [Annotated Model Grant Agreement](#).

There are additional conditions for in-kind contributions of personnel. For details see Article 11 (in-kind contributions against payment) and Articles 6.4 and 12 (in-kind contributions free of charge) of the [Annotated Model Grant Agreement](#). In-kind contributions and the legal entities making them must be described in the proposal (section 4.2 of the technical annex).

This tool tip is designed to help you fill in the budget table in the proposal submission forms. It does not replace the relevant legal basis and documentation (Financial Regulation, Rules for Participation, Model Grant Agreement) which must be consulted in case of doubt.

Participant	Country	(A) Direct personnel costs/€	(B) Other direct costs/€	(C) Direct costs of sub-contracting/€	(D) Direct costs of providing financial support to third parties/€	(E) Costs of in-kind contributions not used on the beneficiary's premises/€	(F) Indirect Costs / € (*0.25(A+B-E))	(G) Special unit costs covering direct & indirect costs / €	(H) Total estimated eligible costs / € (*A+B+C+D+F+G)	(I) Reimbursement rate (%)	(J) Max. grant / € (*H*I)	(K) Requested grant / €

AGA – Annotated Model Grant Agreement: H2020 General MGA: V2.0 – 30.03.2015

A. Direct personnel costs [(not covered by Point F)]

Types of eligible personnel costs

A.1 Personnel costs are eligible, if they are related to personnel working for the beneficiary under an employment contract (or equivalent appointing act) and assigned to the action (**costs for employees (or equivalent)**). They must be limited to salaries (including during parental leave), social security contributions, taxes and other costs included in the **remuneration**, if they arise from national law or the employment contract (or equivalent appointing act).

Beneficiaries that are non-profit legal entities¹⁷ may also declare as personnel costs **additional remuneration** for personnel assigned to the action (including payments on the basis of supplementary contracts regardless of their nature), if:

- it is part of the beneficiary's usual remuneration practices and is paid in a consistent manner whenever the same kind of work or expertise is required;
- the criteria used to calculate the supplementary payments are objective and generally applied by the beneficiary, regardless of the source of funding used.

Additional remuneration for personnel assigned to the action is eligible up to the following amount:

- if the person works full time and exclusively on the action during the full year: up to EUR 8 000;
- if the person works exclusively on the action but not full-time or not for the full year: up to the corresponding pro-rata amount of EUR 8 000, or
- if the person does not work exclusively on the action: up to a pro-rata amount calculated as follows:

{{EUR 8 000
divided by

Participant Portal IT segédlet („IT wiki”)

IT Guidance:

ECAS belépés szükséges!

- Pályázók regisztrációja
- Bírálók regisztrációja, ügyintézés
- Pályaművek benyújtása
- Elnyert pályázatok elektronikus menedzsmentje
- Szerepkörök a Portal-on

The screenshot shows the top navigation bar of the Participant Portal IT Manual. It features the European Commission logo on the left, followed by the text 'EUROPEAN COMMISSION' and 'Participant Portal IT Manual'. Below this is a dark blue navigation bar with several menu items: 'Spaces', 'People', 'Calendars', 'Browse', and 'Create'. To the right of these items are search, help, and user profile icons. At the bottom, a light blue footer bar contains a list of links: 'Home', 'Beneficiaries', 'Experts', 'Proposals', 'Grants', 'Identity and Access Management', 'H2020 Online Manual', 'What's New', and 'IT Support'. A small Hungarian flag icon is visible in the bottom left corner.

Q. How do I update the information related to my organisation once I have obtained a Participant Identification Code (PIC)?

A. Before the organisation is validated (i.e. still in the status "declared"): the data entered during first registration remain editable for the person having registered the organisat...

Q. I am the Legal Entity Appointed Representative (LEAR) of my organisation and have made an update in the beneficiary register some days ago, but it seems that nothing has been updated.

A. Your request to change information is being processed by the Validation Services (VS). Modifications of legal information (e.g. legal name, address, VAT number, registration number,...

Q. I have sent the Legal Entity Appointed Representative (LEAR) appointment documents. When may I receive access to modify the data on the beneficiary register of the Participant Portal?

A. It may take a few weeks before the appointed LEAR is validated. First the legal entity needs to be validated by the Validation Services. You will receive a confirmation e-mail explai...

Q. I have an ECAS account for accessing the Participant Portal but how can I acquire roles and access rights for proposals, projects or organisations?

A. As a general principle, the user who has created the content on the Participant Portal manages access to this content by other users. In other words, there is no centrally controlled...

Q. How can I change my email address or correct spelling errors in my name in my ECAS account?

A. When you are logged in in the Participant Portal, click on the button with your user name (top-right corner), choose "My Account", then "Modify my personal data". Users having a Lega...

Q. What happens if my organisation registered twice (and has two Participant Identification Codes (PICs)) in the Participant Portal?

A. If you discover a duplicate registration of the organisation (the same organisation has been registered twice), please ask your Legal Entity Appointed Representative (LEAR) to contac...

Q. What are the "pre-registration data" in the proposal? Can I change them afterwards?

A. The pre-registration data is filled in when a draft proposal is created by the coordinator. This data includes basic type of action, list of participants and contacts, short summary...

Q. What are the differences between the Fast Track to Innovation Pilot and the SME Instrument under Horizon 2020?

A. Both the Fast Track to Innovation (FTI) Pilot call and the SME Instrument offer close-to-market support to speed up market delivery of innovation resulting from actions framed within...

Q. Under call H2020-LCE-2016-2017, topic LCE-15-2016, who will select the experts in charge of assessing the deliverables and giving advice for the go/no decision?

A. The independent experts for the committee in charge of this aspect will be selected by the Commission.

Q. Question: Which authority is organising the selection of Japanese proposals and will be funding the Japanese proposals for topic SC1-PM-14-2016 under call H2020-SC1-2016-2017 in Horizon 2020?

A. The Ministry of Internal Affairs and Communication (MIC, <http://www.soumu.go.jp/english>) is the funding body responsible in Japan for this call.

Q. Who should I contact in the Japanese Ministry of Internal Affairs and Communication (MIC) in order to understand if potential Japanese partners are eligible for funding for topic SC1-PM-14-2016 under call H2020-SC1-2016-2017?

A. Please contact the Information Application Promotion Office, Information and Communications Bureau of MIC via the functional mailbox healthy-aging@ml.soumu.go.jp. Responsible persons...

Q. When will the final budget allocation for topic SC1-PM-14-2016 under call H2020-SC1-2016-2017 be decided by the Japanese Ministry for Internal Affairs and Communication(MIC), the Japanese authority co-operating with the EC in this joint call?

A. The budget plan of Japanese government would be decided by the end of December, 2015. After that the budget would be officially approved by the Diet around the end of March.

Q. Under topic SC1-PM-14-2016 in call H2020-SC1-2016-2017, is it a requirement that proposals should have the same budget allocation for EU and Japanese partners?

A. Proposals should clearly demonstrate the added value of the proposed cooperation between the EU and Japan partners. This should then be clearly reflected in the balance and allocatio...

Q. In topic SC1-PM-14-2016 under call H2020-SC1-2016-2017, should the test sites in both, the EU and Japan, conduct the same tests using the same technologies?

A. In line with the call text, proposals should benefit from testing solutions both in EU and in Japan in order to understand how they can provide measurable benefits and be easily adap...

The call text of topic SC1-PM-14-2016 under call H2020-SC1-2016-2017 demands that a
