*Clustering 4.0 - 12 year networking*

## ACTIVITIES OF INNOSKART ICT CLUSTER FOR SUPPORTING TRANSDISCIPLINARY CROSS-REGIONAL COOPERATION

### Shaping new strategy

Turn from ICT to digitization:

- trends
- business reality

### Mapping cluster competencies

Regular cluster meetings (4-6 weeks)  
Thematic working group conversations

### Realizing cluster pilots

Different sector representatives start small pilots based on the inner competencies and needs, strengthened with trust

### Opening towards outer / national / international projects

Bringing results to the market

## HOW CAN PROCESSING ACTORS CONNECT TO EXISTING ICT CLUSTERS? WHAT IS THE ROLE OF CROSS REGIONAL COLLABORATION IN IMPROVING ACCESS TO FOOD PROCESSING AND ICT RELATED CLUSTERS?

**Processing actors are welcome in existing ict clusters  
if are open to collaboration!**

- In collaboration projects based on market needs!
- In project collaboration!
- In open lab projects!

**Cross-regional collaboration's role:**

- Strengthening cross-regional structures
- Showing good practices
- Building partnerships
- Strengthening innovation
