

The National Innovation Office's RSS service

The **RSS** (Really Simple Syndication) makes possible for the visitors of a site to be informed about the website's news faster. Numerous applications are available to read the elements published by different RSS providers which let us read a lot of websites' information simultaneously..

The NIO recommends the following RSS applications:

- RSS-reading softwares
 - [Feedreader](#)
 - [RSSOwl](#)
- Browsers
 - [Mozilla Firefox](#)
 - [Opera](#)
 - [Microsoft Internet Explorer 7](#)
 - [Safari](#)
- Web mail services
 - [Mozilla Thunderbird](#)
 - [Opera](#)
 - [Microsoft Office Outlook 2007](#)
- Web applications
 - [Google Reader](#)
 - [Netvibes](#)

The **nih.gov.hu** operates three RSS feeds. By the "[News](#)" feed the latest news of the NIO's website, by the "[Hungarian innovation news](#)" feed the news of the Hungarian innovation, by the "[international innovation news](#)" feed the international innovation's news are available in XML format.
