After meeting with Wu Gang, Dr. Mészáros György had a further talk with Academician Zhong Zhihua, the director of Municipal Science and Technology Commission. After consultations, the two sides reached a consensus and will take measures as soon as possible to promote Chongqing and Hungary all-round cooperation in science and technology.

Hungary has a strong scientific and technological strength in sewage treatment, energy-efficient buildings, automobile manufacturing, energy use and development. These areas will be the focus of cooperation between the two sides. Recently, the two sides will finalize the details of cooperation, and signed a cooperation framework agreement.

Finally, Dr. Mészáros György invited Academician Zhong Zhihua leading with Chongqing research institutions and enterprises to pay a return visit to Hungary.
