

# European Transport Conference 2014 announces Young Researchers' and Practitioners' Forum

29 September - 1 October 2014

Campus Westend, Goethe University, Frankfurt, Germany

Association for European Transport:

The Association for European Transport has been responsible for the organisation of the Conference, which has been held annually since 1973. It is the Association's aim to promote and maintain a pan-European understanding of transport issues along with its members who form a network of transport professionals across Europe.

## **The Association for European Transport (AET) announces:**

After its success in 2013, this year the second ETC Young Researchers' and Practitioners' Forum (YRPF) again comes up with five attractive sessions.

Young researchers and practitioners from all over Europe will discuss:

- Public transport issues and solutions
- Car and bicycle sharing systems
- Commuting behaviour
- Individual perspectives and constraints of mobility, as well as
- Logistics at different scales

## **What is the Young Researchers' and Practitioners' Forum?**

Early career researchers and practitioners are invited to present their work to the participants of the European Transport Conference. Early-stage and experimental projects and research ideas are explicitly welcome. Therefore, the forum is intended to provide a format which enables constructive and comprehensive feedback as well as ample time for discussion.

Book NOW to ensure your place at ETC 2014

The European Transport Conference covers an array of subjects relevant to today's transport professional. The [complete conference programme](#) is now available for download. All delegates will qualify for free WiFi access whilst at the conference, and a free travelcard will be supplied when delegates collect their registration documents from the University.

To book your place at the conference, along with any Technical Visits and Bike Tours, simply complete the [online booking form](#).

Don't forget, a 50% discount applies to new EU member states (2004/2007), to young professionals under 26 or for those with less than 5 years' professional experience.
